Profile

Software engineer with 8+ years building scalable backend systems, distributed services, and AI-powered products. Strong focus on performance, reliability, and mentoring engineering teams.

Experience

- 2022 – Present
- Senior Software Engineer, Vendoroo, Remote
- Designed voice AI agents processing **10k+ calls/day** (Python, FastAPI, ElevenLabs, Twilio).
 - Cut API latency by **40 %** via async refactoring and Redis caching.
 - Led team of 4; built CI/CD pipelines that reduced MTTD from 45 min to under 5 min.
- 2019 – 2021
- Software Engineer, Acme Corp, San Francisco, CA
- Microservices on AWS (EKS/RDS/SQS) serving **2M+ DAU**.
 - Kafka + Flink pipelines: 500k events/min, sub-100 ms end-to-end.
 - Mentored 3 junior engineers; conducted 60+ interviews.
- 2017 – 2019
- Junior Developer, Startup XYZ, Remote
- Django REST APIs; automated deployments from 2 h to 10 min.

Education

- 2013 – 2017
- B.Sc. Computer Engineering, University of Tehran, Iran
- Thesis: *Distributed task scheduling in heterogeneous cloud environments.*

Skills

- Languages
- Python, TypeScript, Go, SQL
- Frameworks
- FastAPI, Django, Node.js, LangChain, LangGraph
- Infra
- Docker, Kubernetes, AWS, GCP, Terraform
- Databases
- PostgreSQL, Redis, MongoDB, Elasticsearch
- Observability
- Datadog, Sentry, OpenTelemetry, Grafana

Projects

- Voice AI Platform
- Open-source voice agent framework in Python. github.com/hejazizo/voice-ai
- CV Generator
- LaTeX-based ATS CV with GitHub Actions CI. github.com/hejazizo/cv

Languages

- English
- Fluent
- Persian
- Native
